

BP ASIA PACIFIC HOLDINGS LIMITED

(Registered No.01094398)

ANNUAL REPORT AND FINANCIAL STATEMENTS 2020

Board of Directors: G A Horner
K A Thomson
S Ozrovech

The directors present the strategic report, their report and the audited financial statements for the year ended 31 December 2020.

STRATEGIC REPORT

Results

The profit for the year after taxation was \$92,241,000 which, when added to the accumulated profit brought forward at 1 January 2020 of \$2,347,807,000, and after deducting total paid interim dividends to ordinary shareholders of \$120,000,000, gives a total accumulated retained profit carried forward at 31 December 2020 of \$2,320,048,000.

Principal activity and review of the business

The company is a holding company for subsidiary undertakings, many of which operate in the Asia Pacific region. It also provides long and short term loan facilities to subsidiary and fellow subsidiary undertakings on a worldwide basis.

The key financial and other performance indicators during the year were as follows:

	2020	2019	Variance
	\$000	\$000	%
Operating (loss) / profit	(1,116)	33,797	(103)
Profit for the year	92,241	192,948	(52)
Total equity	5,221,592	5,249,351	(1)

The decrease in operating profit and profit for the year is due to lower interest rates during the year, resulting in lower interest income. The company also received lower dividend income.

Section 172 (1) statement

This section of the strategic report describes how the directors have had regard to the matters set out in section 172(1) (a) to (f), and forms the statement required under section 414 C of the Companies Act 2006 (the "Act").

The role of the board of directors of the company plays an integral part in demonstrating how the directors have had regard to the matters set out in section 172(1). During the course of the year the following primary tasks were undertaken by the board of directors of the company:

- Defining and establishing purpose and strategy including, where relevant, having regard to the purpose, strategy, culture and values defined by BP p.l.c.;
- Monitoring the potential significant operational challenges presented by the COVID-19 pandemic, having regard to the company's safe and reliable operations; and
- Assessing principal and emerging risks relevant to the company

STRATEGIC REPORT

In light of the role of the board, and their primary tasks and considerations throughout the year (as described above), the directors have discharged their duties under section 172(1) in a way that they considered, in good faith, is most likely to promote the success of the company for the benefit of its members as a whole, having regard to the likely consequences of any decision in the long term and the broader interests of other stakeholders, as required by the Act. In doing so, the directors have considered, amongst other matters:

- a. The likely long-term consequences of the decision.
- b. The interests of the company's employees.
- c. The need to foster the company's business relationships with suppliers, customers and others.
- d. The impact of the company's operations on the community and the environment.
- e. The desire to maintain the company's reputation for high standards of business conduct.
- f. The need to act fairly between members of the company.

The directors also considered the interests of a wider set of stakeholders. Further information on the process behind how the BP p.l.c. board makes decisions that affect the stakeholders of its subsidiaries, including the company, can be found on pages 82 to 83 of BP p.l.c.'s Annual Report and Form 20-F 2020.

To support the directors in the discharge of their duties, and whilst making decisions on behalf of the company, the directors have access to bp central functions assurance support to identify matters which may have an impact on the proposed decision including, where relevant, the section 172 factors outlined above. To ensure the efficiency and effectiveness of engagement with key stakeholders identified by the company, certain stakeholder engagement is led by the bp group, particularly where the impact of a decision may impact the group's reputation.

Stakeholders

The directors believe that engagement with its shareholders and wider stakeholder groups plays a vital role throughout bp's business. During 2020, the directors reiterated their focus on engagement with key stakeholders, as well as an increased focus on environment, social and governance ("ESG") matters. The following outlines key stakeholders identified by the bp group and the company, where relevant, and how their interests were taken into consideration during the decision making process where appropriate.

Shareholders

The directors identify that engagement with shareholders is of key importance to the ongoing success of the company and, as such, when taking decisions, the directors had regard to the company's shareholders with regard to long-term value.

During the year, the directors considered, approved and paid a dividend as appropriate to the shareholder, having considered the impact of such a decision on the long-term prospects of the business. This consideration included a review of the latest management accounts for the company and the distributable reserves available. The directors considered the level of funds that would be available to the company after paying a dividend, and the need to maintain sufficient funds to meet the ongoing liabilities of the company, as part of the bp group's funding and liquidity arrangements.

Community and environment

bp consults with communities, NGOs, academics and industry associations about the future of bp, with regard to the environment and social matters and the issues facing the world, drawing on their external expertise, input and challenge. In 2020 this included providing input to the EU methane strategy and supported the UK government's planned phase out of internal combustion engines.

In 2020 bp developed its updated position on biodiversity and new measures to help restore, maintain and enhance nature with input and constructive challenge from international nature and conservation organizations and experts including Conservation International, Fauna & Flora International (FFI), UNESCO and IUCN.

bp also updated its business and human rights policy in 2020 to address emerging human rights issues relevant to our industry, clarify our human rights commitments and communicate how bp's approach to managing

STRATEGIC REPORT

human rights impacts has advanced. The update was supported by consultations with a wide range of NGOs, subject matter experts and investors.

Maintaining a reputation for high standards of business conduct

In 2020 bp launched its new sustainability frame, aims and objectives linked to the UN Sustainable Development Goals. bp's values of safety, respect, excellence, courage and one team define how the group, including the company and its board of directors, conduct business. Furthermore, bp's code of conduct is based upon its values and it sets clear expectations for how bp, the company and the relevant board of directors operate. The directors of the company continued to adhere, in good faith, to the bp code of conduct during the year, to ensure the board and the company maintained a reputation for high standards of business conduct.

bp's code of conduct includes prohibitions on engaging in bribery or corruption in any form, in accordance with bp's group-wide anti-bribery and corruption policy and procedures. During the year, bp continued to engage suppliers and communicate expectations for managing bribery and corruption risk on behalf of bp, where relevant, for example the customer & products business delivered a regional annual contractor forum digitally, providing awareness of bribery and corruption risks.

The company's principal decisions

During the period the directors continued to monitor progress against the company's strategy, as highlighted in the principal activities section of the strategic report of the company, and decisions made by the directors were in respect of operational matters, in furtherance of the bp group's purpose.

Principal risks and uncertainties

The company aims to deliver sustainable value by identifying and responding successfully to risks. Risk management is integrated into the process of planning and performance management for the bp group.

The risks listed below, separately or in combination, could have a material adverse effect on the implementation of the company's strategy, business, financial performance, results of operations, cash flows, liquidity, prospects, shareholder value and returns and reputation. Unless stated otherwise, further details on these risks are included within the risk factors in the strategic report of the bp group Annual Report and Form 20-F for the year ended 31 December 2020.

Strategic and commercial risks

Geopolitical

The company is exposed to a range of political developments and consequent changes to the operating and regulatory environment could cause business disruption. These may in turn limit the company's ability to pursue new opportunities, affect the recoverability of its assets or cause it to incur additional costs. Political instability, changes to the regulatory environment or taxation, international trade disputes and barriers to free trade, international sanctions, expropriation or nationalization of property, civil strife, strikes, insurrections, acts of terrorism, acts of war and public health situations (including the continued impact of the COVID-19 pandemic or a future epidemic or pandemic) may disrupt or curtail its operations or development activities.

The impact of the UK's exit from the EU

bp have been assessing the potential impact on the group of Brexit and the UK's future global relationships and have not identified any significant risk to the business.

Liquidity, financial capacity and financial, including credit, exposure

Failure to work within the financial framework set by the bp group could impact the company's ability to operate and result in financial loss.

STRATEGIC REPORT

The impact of coronavirus (COVID-19)

The spread of COVID-19 has caused significant volatility in the oil and gas prices and refining margins. bp's future financial performance will be impacted by the extent and duration of the current market conditions and the effectiveness of the actions that it and others take, including its financial interventions. bp's financial frame is designed to be robust to periods of low price, with flexibility to reduce cost and capital expenditure if required. We continue to assess the impact of COVID-19 and have instigated appropriate mitigation plans.

Joint arrangements and contractors

The company may have varying levels of control over the standards, operations and compliance of its partners, contractors and sub-contractors which could result in legal liability and reputational damage.

Insurance

The bp group's insurance strategy could expose the bp group to material uninsured losses which in turn could adversely affect the company.

Compliance and control risks

Ethical misconduct and non-compliance

Ethical misconduct or breaches of applicable laws by the company's businesses or its employees could be damaging to its reputation, and could result in litigation, regulatory action and penalties.

Regulation

Changes in the law and regulation could increase costs, constrain the company's operations and affect its business plans and financial performance.

Reporting

Failure to accurately report the company's data could lead to regulatory action, legal liability and reputational damage.

The impact of reinventing bp on the organization

Last year it was announced that we are reinventing bp to help deliver our ambition. This significant reorganization includes a new structure, a new leadership team, new ways of working and a reduction in the size of bp's office based workforce. The risks associated with these changes have been identified, assessed and managed with the support of project management offices. As part of bp's three lines of defence, our businesses, integrators, enablers and internal audit are working to deliver clear accountabilities and the associated planned workload reduction. All individuals changing roles or leaving bp are required to complete a management of change.

STRATEGIC REPORT

Financial risk management

The company is exposed to a number of different financial risks arising from natural business exposures as well as market risks relating to foreign currency exchange rates and interest rates. Further details on these financial risks are included within Note 29 of the bp group Annual Report and Form 20-F for the year ended 31 December 2020.

DIRECTORS' REPORT

BP ASIA PACIFIC HOLDINGS LIMITED

Directors

The present directors are listed on page 1.

G A Horner and K A Thomson served as directors throughout the financial year. Changes since 1 January 2020 are as follows:

	<u>Appointed</u>	<u>Resigned</u>
S Ozroveh	30/11/2020	—
D A Rider	—	30/11/2020

Directors' indemnity

The company indemnifies the directors in its Articles of Association to the extent allowed under section 232 of the Companies Act 2006. Such qualifying third party indemnity provisions for the benefit of the company's directors remain in force at the date of this report.

Dividends

During the year the company has declared and paid dividends of \$120 million (2019 \$150 million). The directors do not propose the payment of a final dividend.

Financial instruments

In accordance with section 414C of the Companies Act 2006 the directors have included information regarding financial instruments as required by Schedule 7 (Part 1.6) of the Large and Medium-sized Companies and Groups (Accounts and Reports) Regulations 2008 in the strategic report under Financial risk management.

Post balance sheet events

Post the year end balance date one of the company's subsidiaries, BP (Shanghai) Trading Limited, was liquidated and on 26 April 2021 the company received a final distribution payment of \$22m from BP (Shanghai) Trading Limited.

On 29 August 2021, the directors passed a resolution to sell 100% of the company's interest in Lebanese Aviation Technical Services S.A.L. for \$2.5m.

Going concern

The directors have assessed the prospects of the company over a period of at least 12 months. The directors have considered expectations of the position and performance of the company over this period, taking account of its short-term and longer-range plans. Taking into account the company's current position and its principal risks on pages 3-5, the directors have a reasonable expectation that the company will be able to continue in operation and meet its liabilities as they fall due over at least the next 12 months.

Since 1 January 2020, there has been significant volatility in the oil and gas prices and refining margins, in large part due to the impact of the international spread of COVID-19 (Coronavirus) and geopolitical factors. The impact of COVID-19 and the current economic environment on the basis of preparation of these financial statements has been considered.

The company has net assets of \$5.2 billion, and a strong net current assets position of \$4.4 billion at 31 December 2020. Aside from tax payable of \$3 million, the company's liabilities relate to a funding account from BP group treasury.

DIRECTORS' REPORT

Liquidity and financing is managed within bp under pooled group-wide arrangements via internal financing accounts (IFAs). As part of assuring the going concern basis of preparation for the company, the ability and intent of the bp group to support the company has been taken into consideration. The most recent bp group financial statements, drawn up to 30 June 2021 and published on 3 August 2021 continue to be prepared on a going concern basis. Forecast liquidity has been assessed at a group level under a number of scenarios and a reverse stress test performed to support the group's going concern assertion. In addition, group management of bp have confirmed that the existing intra-group funding and liquidity arrangements as currently constituted are expected to continue for the foreseeable future, being no less than twelve months from the approval of these financial statements. Accordingly, the company will be able to draw on support from the bp group for the foreseeable future and these financial statements have therefore been prepared on the going concern basis.

In assessing the prospects of BP Asia Pacific Holdings Limited, the directors noted that such assessment is subject to a degree of uncertainty that can be expected to increase looking out over time and, accordingly, that future outcomes cannot be guaranteed or predicted with certainty.

Having a reasonable expectation that the company has adequate resources to continue in operational existence for at least the next 12 months from the date these financial statements were approved, the directors consider it appropriate to continue to adopt the going concern basis of accounting in preparing the financial statements.

Future developments

The directors aim to maintain the management policies which have resulted in the company's stability in recent years. They believe that the company is in a good position to take advantage of any opportunities which may arise in the future.

It is the intention of the directors that the business of the company will continue for the foreseeable future.

Stakeholder statement

Engagement with other stakeholders

The board of directors of the company aims to foster enduring relationships with governments, customers, partners, suppliers and communities in the countries where it operates. The directors work with business partners in an honest, respectful and responsible way and seek to work with others who share the company's commitments to safety and ethics and compliance.

The company's activities, and the decisions of its directors, affect a wide variety of individuals and organizations. The directors engage with these stakeholders and listen to their differing needs and priorities as an everyday part of business, utilising the input and feedback to inform the directors' decision making process on behalf of the company.

As noted in the section 172 (1) statement, responsibility for decisions that impact the entire group is taken at BP p.l.c. level. On behalf of the company, the bp group is a member of industry associations that offer opportunities to share good practices and collaborate on issues of importance. Additionally, the bp group works with governments on a range of issues that are relevant to its business, from regulatory compliance, to understanding tax liabilities, to collaborating on community initiatives.

The bp group also seeks to engage with customers through forums such as social media, focus groups and in-depth interviews with customers to better understand customer's needs and seek their feedback.

In relation to the company's relationship and engagement with governments, regulators, community and environment, please refer to the company's section 172 (1) statement.

For further information on the process behind how the BP p.l.c. board makes decisions that affect the stakeholders of its subsidiaries, including the company, please refer to the section 172 (1) statement available in the BP p.l.c. Annual Report and Form 20-F 2020.

DIRECTORS' REPORT

During the year the directors continued with the implementation of the company's strategy, as highlighted in the strategic report in respect of the principal activities of the company, and decisions made by the directors were in respect of operational matters, in furtherance of the bp group purpose.

Auditors

Pursuant to section 487 of the Companies Act 2006, Deloitte LLP have expressed their willingness to continue in office as auditors and are therefore deemed reappointed as auditors.

Directors' statement as to the disclosure of information to the auditor

The directors who were members of the board at the time of approving the directors' report are listed on page 1. Having made enquiries of fellow directors and of the company's auditor, each of these directors confirms that:

- To the best of each director's knowledge and belief, there is no information relevant to the preparation of the auditor's report of which the company's auditor is unaware; and
- Each director has taken all the steps a director might reasonably be expected to have taken to be aware of relevant audit information and to establish that the company's auditor is aware of that information.

This confirmation is given and should be interpreted in accordance with section 418 of the Companies Act 2006.

**STATEMENT OF DIRECTORS' RESPONSIBILITIES IN RESPECT
OF THE FINANCIAL STATEMENTS**

BP ASIA PACIFIC HOLDINGS LIMITED

The directors are responsible for preparing the Annual Report and the financial statements in accordance with applicable UK law and regulations.

Company law requires the directors to prepare financial statements for each financial year. Under that law the directors have elected to prepare the financial statements in accordance with United Kingdom Generally Accepted Accounting Practice (United Kingdom Accounting Standards and applicable law) including Financial Reporting Standard 101 'Reduced Disclosure Framework'. Under company law the directors must not approve the financial statements unless they are satisfied that they give a true and fair view of the state of affairs of the company and the profit or loss for that period. In preparing these financial statements, the directors are required to:

- select suitable accounting policies and then apply them consistently;
- make judgements and estimates that are reasonable and prudent;
- state whether applicable United Kingdom accounting standards have been followed, subject to any material departures disclosed and explained in the financial statements; and
- prepare the financial statements on the going concern basis unless it is inappropriate to presume that the company will continue in business.

The directors are responsible for keeping adequate accounting records that are sufficient to show and explain the company's transactions and disclose with reasonable accuracy at any time the financial position of the company and enable them to ensure that the financial statements comply with the Companies Act 2006. They are also responsible for safeguarding the assets of the company and hence for taking reasonable steps for the prevention and detection of fraud and other irregularities.

The directors confirm that they have complied with these requirements. Details of the directors' assessment of going concern are provided in the directors' report.

INDEPENDENT AUDITOR'S REPORT

TO THE MEMBERS OF BP ASIA PACIFIC HOLDINGS LIMITED

Report on the audit of the financial statements

Opinion

In our opinion the financial statements of BP Asia Pacific Holdings Limited (the company):

- give a true and fair view of the state of the company's affairs as at 31 December 2020 and of its profit for the year then ended;
- have been properly prepared in accordance with United Kingdom Generally Accepted Accounting Practice, including Financial Reporting Standard 101 "Reduced Disclosure Framework"; and
- have been prepared in accordance with the requirements of the Companies Act 2006.

We have audited the financial statements which comprise:

- the profit and loss account;
- the statement of comprehensive income;
- the balance sheet;
- the statement of changes in equity; and
- the related notes 1 to 18.

The financial reporting framework that has been applied in their preparation is applicable law and United Kingdom Accounting Standards, including Financial Reporting Standard 101 "Reduced Disclosure Framework" (United Kingdom Generally Accepted Accounting Practice).

Basis for opinion

We conducted our audit in accordance with International Standards on Auditing (UK) (ISAs (UK)) and applicable law. Our responsibilities under those standards are further described in the auditor's responsibilities for the audit of the financial statements section of our report.

We are independent of the company in accordance with the ethical requirements that are relevant to our audit of the financial statements in the UK, including the Financial Reporting Council's (the 'FRC's') Ethical Standard, and we have fulfilled our other ethical responsibilities in accordance with these requirements. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Conclusions relating to going concern

In auditing the financial statements, we have concluded that the directors' use of the going concern basis of accounting in the preparation of the financial statements is appropriate.

Based on the work we have performed, we have not identified any material uncertainties relating to events or conditions that, individually or collectively, may cast significant doubt on the company's ability to continue as a going concern for a period of at least twelve months from when the financial statements are authorised for issue.

Our responsibilities and the responsibilities of the directors with respect to going concern are described in the relevant sections of this report.

Other information

The other information comprises the information included in the annual report, other than the financial statements and our auditor's report thereon. The directors are responsible for the other information contained within the annual report. Our opinion on the financial statements does not cover the other information and, except to the extent otherwise explicitly stated in our report, we do not express any form of assurance conclusion thereon.

Our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained in the audit, or otherwise appears to be materially misstated. If we identify such material inconsistencies or apparent material misstatements, we are required to determine whether this gives rise to a material misstatement in the financial statements themselves. If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact.

We have nothing to report in this regard.

INDEPENDENT AUDITOR'S REPORT

Responsibilities of directors

As explained more fully in the statement of directors' responsibilities, the directors are responsible for the preparation of the financial statements and for being satisfied that they give a true and fair view, and for such internal control as the directors determine is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, the directors are responsible for assessing the company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the directors either intend to liquidate the company or to cease operations, or have no realistic alternative but to do so.

Auditor's responsibilities for the audit of the financial statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with ISAs (UK) will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

A further description of our responsibilities for the audit of the financial statements is located on the FRC's website at: www.frc.org.uk/auditorsresponsibilities. This description forms part of our auditor's report.

Extent to which the audit was considered capable of detecting irregularities, including fraud

Irregularities, including fraud, are instances of non-compliance with laws and regulations. We design procedures in line with our responsibilities, outlined above, to detect material misstatements in respect of irregularities, including fraud. The extent to which our procedures are capable of detecting irregularities, including fraud is detailed below.

We considered the nature of the company's industry and its control environment, and reviewed the company's documentation of their policies and procedures relating to fraud and compliance with laws and regulations. We also enquired of management, about their own identification and assessment of the risks of irregularities.

We obtained an understanding of the legal and regulatory frameworks that the company operates in, and identified the key laws and regulations that:

- had a direct effect on the determination of material amounts and disclosures in the financial statements. These included the UK Companies Act and relevant tax legislation; and
- do not have a direct effect on the financial statements but compliance with which may be fundamental to the company's ability to operate or to avoid a material penalty.

We discussed among the audit engagement team regarding the opportunities and incentives that may exist within the organisation for fraud and how and where fraud might occur in the financial statements.

In common with all audits under ISAs (UK), we are also required to perform specific procedures to respond to the risk of management override. In addressing the risk of fraud through management override of controls, we tested the appropriateness of journal entries and other adjustments; assessed whether the judgements made in making accounting estimates are indicative of a potential bias; and evaluated the business rationale of any significant transactions that are unusual or outside the normal course of business.

In addition to the above, our procedures to respond to the risks identified included the following:

- reviewing financial statement disclosures by testing to supporting documentation to assess compliance with provisions of relevant laws and regulations described as having a direct effect on the financial statements;
- performing analytical procedures to identify any unusual or unexpected relationships that may indicate risks of material misstatement due to fraud;
- enquiring of management, and in-house legal counsel concerning actual and potential litigation and claims, and instances of non-compliance with laws and regulations; and
- reading minutes of meetings of those charged with governance.

INDEPENDENT AUDITOR'S REPORT

Report on other legal and regulatory requirements

Opinions on other matters prescribed by the Companies Act 2006

In our opinion, based on the work undertaken in the course of the audit:

- the information given in the strategic report and the directors' report for the financial year for which the financial statements are prepared is consistent with the financial statements; and
- the strategic report and the directors' report have been prepared in accordance with applicable legal requirements.

In the light of the knowledge and understanding of the company and its environment obtained in the course of the audit, we have not identified any material misstatements in the strategic report or the directors' report.

Matters on which we are required to report by exception

Under the Companies Act 2006 we are required to report in respect of the following matters if, in our opinion:

- adequate accounting records have not been kept, or returns adequate for our audit have not been received from branches not visited by us; or
- the financial statements are not in agreement with the accounting records and returns; or
- certain disclosures of directors' remuneration specified by law are not made; or
- we have not received all the information and explanations we require for our audit.

We have nothing to report in respect of these matters.

Use of our report

This report is made solely to the company's members, as a body, in accordance with Chapter 3 of Part 16 of the Companies Act 2006. Our audit work has been undertaken so that we might state to the company's members those matters we are required to state to them in an auditor's report and for no other purpose. To the fullest extent permitted by law, we do not accept or assume responsibility to anyone other than the company and the company's members as a body, for our audit work, for this report, or for the opinions we have formed.

FOR THE YEAR ENDED 31 DECEMBER 2020

BP ASIA PACIFIC HOLDINGS LIMITED

1. Authorisation of financial statements and statement of compliance with Financial Reporting Standard 101 Reduced Disclosure Framework (FRS 101)

The financial statements of BP Asia Pacific Holdings Limited for the year ended 31 December 2020 were approved by the board of directors on _____ and the balance sheet was signed on the board's behalf by K A Thomson. BP Asia Pacific Holdings Limited is a private company, limited by shares incorporated, domiciled and registered in England and Wales (registered number 01094398). The company's registered office is at Chertsey Road, Sunbury on Thames, Middlesex, TW16 7BP, United Kingdom. These financial statements were prepared in accordance with Financial Reporting Standard 101 'Reduced Disclosure Framework' (FRS 101) and the provisions of the Companies Act 2006.

2. Significant accounting policies, judgements, estimates and assumptions

The significant accounting policies and critical accounting judgements, estimates and assumptions of the company are set out below.

Basis of preparation

These financial statements have been prepared in accordance with FRS 101. The financial statements have been prepared under the historical cost convention. Historical cost is generally based on the fair value of the consideration given in exchange for the assets.

The accounting policies that follow have been consistently applied to all years presented, except where otherwise indicated.

These financial statements are separate financial statements. The company has taken advantage of the exemption under s400 of the Companies Act 2006 not to prepare consolidated financial statements, because it is included in the group financial statements of BP p.l.c. Details of the parent in whose consolidated financial statements the company is included are shown in Note 17 to the financial statements.

As permitted by FRS 101, the company has taken advantage of the disclosure exemptions available under that standard in relation to:

- (a) the requirements of paragraphs 62, B64(d), B64(e), B64(g), B64(h), B64(j) to B64(m), B64(n)(ii), B64(o)(ii), B64(p), B64(q)(ii), B66 and B67 of IFRS 3 Business Combinations
- (b) the requirements of IFRS 7 Financial Instruments: Disclosures
- (c) the requirements of paragraphs 91 – 99 of IFRS 13 Fair Value Measurement
- (d) the requirements of paragraphs 10(d), 10(f), 16, 38A, 38B, 38C, 38D, 40A, 40B, 40C, 40D, 111 and 134 to 136 of IAS 1 Presentation of Financial Statements
- (e) the requirement in paragraph 38 of IAS 1 Presentation of Financial Statements to present comparative information in respect of paragraph 79(a)(iv) of IAS 1
- (f) the requirements of IAS 7 Statement of Cash Flows
- (g) the requirements of paragraphs 30 and 31 of IAS 8 Accounting Policies, Changes in Accounting Estimates and Errors in relation to standards not yet effective
- (h) the requirements of paragraph 17 and 18A of IAS 24 Related Party Disclosures
- (i) the requirements of IAS 24 Related Party Disclosures to disclose related party transactions entered into between two or more members of a group, provided that any subsidiary which is a party to the transaction is wholly owned by such a member
- (j) the requirements of paragraphs 130(f)(ii), 130(f)(iii), 134(d) to 134(f) and 135(c)-135(e) of IAS 36, Impairment of Assets

NOTES TO THE FINANCIAL STATEMENTS

Where required, equivalent disclosures are given in the group financial statements of BP p.l.c. The group financial statements of BP p.l.c. are available to the public and can be obtained as set out in Note 17.

The financial statements are presented in US dollars and all values are rounded to the nearest thousand dollars (\$000), except where otherwise indicated.

Significant accounting policies: use of judgements, estimates and assumptions

Inherent in the application of many of the accounting policies used in preparing the financial statements is the need for management to make judgements, estimates and assumptions that affect the reported amounts of assets and liabilities and the disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the period. Actual outcomes could differ from the estimates and assumptions used. The accounting judgements and estimates that have a significant impact on the results of the company are set out within the boxed text below, and should be read in conjunction with the information provided in the Notes to the financial statements.

The COVID-19 pandemic, climate change, the energy transition, bp's strategy to 2030 and ambition to become a net-zero company by 2050 or sooner were considered in preparing the bp group consolidated financial statements. These issues are not expected to have significant impacts on the currently reported amounts of the company's assets and liabilities.

Significant accounting policies

Going concern

The directors have a reasonable expectation that the company has adequate resources to continue in operational existence for at least the next 12 months from the date these financial statements were approved and the financial statements have therefore been prepared under the going concern basis.

For further detail on the directors' going concern assessment, please refer to the directors' report.

Foreign currency

The functional and presentation currency of the financial statements is US dollars. The functional currency is the currency of the primary economic environment in which an entity operates and is normally the currency in which the entity primarily generates and expends cash.

As the company is considered to be an intermediate holding company, and therefore an extension of its parent company, its functional currency is the same as its parent company.

Transactions in foreign currencies are initially recorded in the functional currency by applying the rate of exchange ruling at the date of the transaction. Where this is not practical and exchange rates do not fluctuate materially the average rate has been used. Monetary assets and liabilities denominated in foreign currencies are retranslated into the functional currency at the spot exchange on the balance sheet date. Any resulting exchange differences are included in the profit and loss account, unless hedge accounting is applied. Non-monetary assets and liabilities, other than those measured at fair value, are not retranslated subsequent to initial recognition.

Investments

Fixed asset investments in subsidiaries, joint ventures and associates are held at cost. The company assesses investments for an impairment indicator annually. If any such indication of possible impairment exists, the company makes an estimate of the investment's recoverable amount. Where the carrying amount of an investment exceeds its recoverable amount, the investment is considered impaired and is written down to its recoverable amount.

NOTES TO THE FINANCIAL STATEMENTS

Where these circumstances have reversed, the impairment previously made is reversed to the extent of the original cost of the investment.

Interests in associates

An associate is an entity over which the company has significant influence, through the power to participate in the financial and operating policy decisions of the investee, but which is not a subsidiary or a joint arrangement.

Significant judgement: interests in other entities

Judgement is required in assessing the level of control or influence over another entity in which the company holds an interest. Depending upon the facts and circumstances in each case, the company may obtain control, joint control or significant influence over the entity or arrangement. Transactions which give the company control of a business are business combinations. If the company obtains joint control of an arrangement, judgement is also required to assess whether the arrangement is a joint operation or a joint venture. If the company has neither control nor joint control, it may be in a position to exercise significant influence over the entity, which is then accounted for as an associate held at cost.

Significant judgements and estimates: impairment of investments

Determination as to whether, and how much, an investment is impaired involves management estimates on highly uncertain matters such as the effects of inflation and deflation on operating expenses, discount rates, production profiles, reserves and resources, and future commodity prices, including the outlook for global or regional market supply-and-demand conditions for crude oil, natural gas and refined products.

Management judgement is required to determine whether an indicator of potential impairment exists in relation to the company's investments. No such indicators have been identified during the current year and therefore no impairment test has needed to be performed. Accordingly, the recoverable amount of the investment has not needed to be estimated, nor any assumptions made, and no sensitivity analysis has been required. Details of the carrying value of the investments are provided in *Note 9*.

Financial assets

Financial assets are recognized initially at fair value, normally being the transaction price. In the case of financial assets not at fair value through profit or loss, directly attributable transaction costs are also included. The subsequent measurement of financial assets depends on their classification, as set out below. The company derecognizes financial assets when the contractual rights to the cash flows expire or the rights to receive cash flows have been transferred to a third party along with either substantially all of the risks and rewards or control of the asset. This includes the derecognition of receivables for which discounting arrangements are entered into.

The company classifies its financial assets as measured at amortized cost or fair value through profit or loss. The classification depends on the business model for managing the financial assets and the contractual cash flow characteristics of the financial asset.

Financial assets measured at amortized cost

Financial assets are classified as measured at amortized cost when they are held in a business model the objective of which is to collect contractual cash flows and the contractual cash flows represent solely payments of principal and interest. Such assets are carried at amortised cost using the effective interest method if the time value of money is significant. Gains and losses are recognized in the profit and loss account when the loans and receivables are derecognized or impaired and when interest is recognized using the effective interest method. This category of financial assets includes trade and other receivables.

Impairment of financial assets measured at amortized cost

The company assesses on a forward-looking basis the expected credit losses associated with financial assets classified as measured at amortized cost at each balance sheet date. Expected credit losses are measured

NOTES TO THE FINANCIAL STATEMENTS

based on the maximum contractual period over which the company is exposed to credit risk. As lifetime expected credit losses are recognized for trade receivables and the tenor of substantially all other in-scope financial assets is less than 12 months there is no significant difference between the measurement of 12-month and lifetime expected credit losses for the company. The measurement of expected credit losses is a function of the probability of default, loss given default and exposure at default. The expected credit loss is estimated as the difference between the asset's carrying amount and the present value of the future cash flows the company expects to receive, discounted at the financial asset's original effective interest rate. The carrying amount of the asset is adjusted, with the amount of the impairment gain or loss recognized in the profit and loss account.

A financial asset or group of financial assets classified as measured at amortized cost is considered to be credit-impaired if there is reasonable and supportable evidence that one or more events that have a detrimental impact on the estimated future cash flows of the financial asset (or group of financial assets) have occurred. Financial assets are written off where the company has no reasonable expectation of recovering amounts due.

Financial liabilities

The measurement of financial liabilities is as follows:

Financial liabilities measured at amortized cost

Financial liabilities are initially recognized at fair value, net of directly attributable transaction costs. For interest-bearing loans and borrowings this is typically equivalent to the fair value of the proceeds received net of issue costs associated with the borrowing.

After initial recognition, these financial liabilities are subsequently measured at amortized cost using the effective interest method. Amortised cost is calculated by taking into account any issue costs, and any discount or premium on settlement. Gains and losses arising on the repurchase, settlement or cancellation of liabilities are recognized respectively in interest receivable and similar income and interest payable and similar charges. This category of financial liabilities includes trade and other payables and finance debt.

Offsetting of financial assets and liabilities

Financial assets and liabilities are presented gross in the balance sheet unless both of the following criteria are met: the company currently has a legally enforceable right to set off the recognized amounts; and the company intends to either settle on a net basis or realize the asset and settle the liability simultaneously. If both of the criteria are met, the amounts are set off and presented net. A right of set off is the company's legal right to settle an amount payable to a creditor by applying against it an amount receivable from the same counterparty. The relevant legal jurisdiction and laws applicable to the relationships between the parties are considered when assessing whether a current legally enforceable right to set off exists.

Taxation

Income tax expense represents the sum of current tax and deferred tax.

Income tax is recognized in the profit and loss account, except to the extent that it relates to items recognized in other comprehensive income or directly in equity, in which case the related tax is recognized in other comprehensive income or directly in equity.

Current tax is based on the taxable profit for the period. Taxable profit differs from net profit as reported in the profit and loss account because it is determined in accordance with the rules established by the applicable taxation authorities. It therefore excludes items of income or expense that are taxable or deductible in other periods as well as items that are never taxable or deductible. The company's liability for current tax is calculated using tax rates and laws that have been enacted or substantively enacted by the balance sheet date.

NOTES TO THE FINANCIAL STATEMENTS

Deferred tax is provided, using the balance sheet method, on temporary differences at the balance sheet date between the tax bases of assets and liabilities and their carrying amounts for financial reporting purposes. Deferred tax liabilities are recognized for all taxable temporary differences except:

- Where the deferred tax liability arises on the initial recognition of an asset or liability in a transaction that is not a business combination and, at the time of the transaction, affects neither accounting profit nor taxable profit or loss.
- In respect of taxable temporary differences associated with investments in subsidiaries and associates and interests in joint arrangements, where the company is able to control the timing of the reversal of the temporary differences and it is probable that the temporary differences will not reverse in the foreseeable future.

Deferred tax assets are recognized for deductible temporary differences, carry-forward of unused tax credits and unused tax losses, to the extent that it is probable that taxable profit will be available against which the deductible temporary differences and the carry-forward of unused tax credits and unused tax losses can be utilized. An exception is where the deferred tax asset relates to the deductible temporary difference arising from the initial recognition of an asset or liability in a transaction that is not a business combination and, at the time of the transaction, affects neither accounting profit nor taxable profit or loss.

In respect of deductible temporary differences associated with investments in subsidiaries and associates and interests in joint arrangements, deferred tax assets are recognized only to the extent that it is probable that the temporary differences will reverse in the foreseeable future and taxable profit will be available against which the temporary differences can be utilized.

The carrying amount of deferred tax assets is reviewed at each balance sheet date and reduced to the extent that it is no longer probable or increased to the extent that it is probable that sufficient taxable profit will be available to allow all or part of the deferred tax asset to be utilized.

Deferred tax assets and liabilities are measured at the tax rates that are expected to apply in the period when the asset is realized or the liability is settled, based on tax rates (and tax laws) that have been enacted or substantively enacted at the balance sheet date. Deferred tax assets and liabilities are not discounted.

Deferred tax assets and liabilities are offset only when there is a legally enforceable right to set off current tax assets against current tax liabilities and when the deferred tax assets and liabilities relate to income taxes levied by the same taxation authority on either the same taxable entity or different taxable entities where there is an intention to settle the current tax assets and liabilities on a net basis or to realize the assets and settle the liabilities simultaneously.

Where tax treatments are uncertain, if it is considered probable that a taxation authority will accept the company's proposed tax treatment, income taxes are recognized consistent with the company's income tax filings. If it is not considered probable, the uncertainty is reflected within the carrying amount of the applicable tax asset or liability using either the most likely amount or an expected value, depending on which method better predicts the resolution of the uncertainty.

Judgement is required when determining whether a particular tax is an income tax or another type of tax (for example a production tax). Accounting for deferred tax is applied to income taxes as described above, but is not applied to other types of taxes; rather such taxes are recognized in the profit and loss account in accordance with the applicable accounting policy such as Provisions and contingent liabilities.

Interest income

Interest income is recognized as the interest accrues using the effective interest rate – that is the rate that exactly discounts estimated future cash receipts through the expected life of the financial instrument to the net carrying amount of the financial asset.

NOTES TO THE FINANCIAL STATEMENTS

Dividend income

Dividend income from investments is recognized when the shareholders' right to receive the payment is established.

Finance costs

All finance costs are recognized in the profit and loss account in the period in which they are incurred.

Dividends payable

Final dividends are recorded in the financial statements in the year in which they are approved by the company's shareholders. Interim dividends are recorded in the year in which they are approved and paid.

Impact of new International Financial Reporting Standards

bp adopted 'Interest Rate Benchmark Reform – Phase I – Amendments to IFRS 9 'Financial instruments' and IFRS 7 'Financial instruments: Disclosures' with effect from 1 January 2020. There are no other new or amended standards or interpretations adopted during the year that have a significant impact on the company's financial statements.

The adoption of 'Interest Rate Benchmark Reform – Phase I – Amendments to IFRS 9 'Financial instruments' and IFRS 7 'Financial instruments: Disclosures' has had no material impact on the company's financial statements.

3. Operating (loss) / profit

This is stated after charging / (crediting):

	2020	2019
	\$000	\$000
Net foreign exchange losses / (gains) ^a	1,471	(134)
Impairment of loans ^a	3,385	—
Reversal of past impairment losses in relation to loans ^a	(2,916)	—

^aAmount is included in Administrative expenses.

4. Auditor's remuneration

	2020	2019
	\$000	\$000
Fees for the audit of the company	18	14

Fees paid to the company's auditor, Deloitte LLP and its associates for services other than the statutory audit of the company are not disclosed in these financial statements since the consolidated financial statements of BP Asia Pacific Holdings Limited's ultimate parent, BP p.l.c., are required to disclose non-audit fees on a consolidated basis.

NOTES TO THE FINANCIAL STATEMENTS

5. Interest receivable and similar income

	<u>2020</u>	<u>2019</u>
	\$000	\$000
Interest income from amounts owed by group undertakings	103,308	175,743
Interest income from associates	2,982	3,465
Interest income from joint ventures	9,311	16,519
Total interest receivable and similar income	<u>115,601</u>	<u>195,727</u>

6. Interest payable and similar expenses

	<u>2020</u>	<u>2019</u>
	\$000	\$000
Interest expense on:		
Loans from group undertakings	11,881	20,670
Total interest payable and similar expenses	<u>11,881</u>	<u>20,670</u>

7. Taxation

The company is a member of a group for the purposes of relief within Part 5, Corporation Tax Act 2010.

The taxation charge in the profit and loss account is made up as follows:

	<u>2020</u>	<u>2019</u>
	\$000	\$000
<u>Current tax</u>		
Overseas tax on income for the year	10,363	15,906
Tax charged on profit	<u>10,363</u>	<u>15,906</u>

(a) Reconciliation of the effective tax rate

The tax assessed on the profit for the year is lower than the standard rate of corporation tax in the UK of 19% for the year ended 31 December 2020 (2019: 19%). The differences are reconciled below:

	<u>2020</u>	<u>2019</u>
	UK	UK
	\$000	\$000
Profit before tax	102,604	208,854
Tax charge	10,363	15,906
Effective tax rate	10 %	8 %

NOTES TO THE FINANCIAL STATEMENTS

	2020	2019
	UK	UK
	%	%
UK corporation tax rate:	19	19
Double tax relief	(10)	(7)
Overseas tax	10	8
Free group relief	(9)	(9)
Dividends not subject to UK tax	—	(3)
Effective tax rate	10	8

Change in corporation tax rate

A UK corporation rate of 19% (effective 1 April 2020) was substantively enacted on 17 March 2020, reversing the previously enacted reduction in the rate from 19% to 17%. The UK deferred tax liability as at 31 December 2020 was calculated at 19% (2019 17%). In the 3 March 2021 Budget it was announced that the UK tax rate will increase to 25% from 1 April 2023. This will have a consequential effect on the company's future tax charge.

(b) Provision for deferred tax

The deferred tax included in the profit and loss account and balance sheet is as follows:

	Profit and loss account		Balance sheet	
<u>Deferred tax liability</u>	2020	2019	2020	2019
	\$000	\$000	\$000	\$000
Other taxable temporary differences	(14)	—	(224)	(210)
Net charge for deferred tax liabilities	(14)	—	(224)	(210)

Analysis of movements during the year

	2020
	\$000
At 1 January 2020	(210)
(Charge) / credit for the year in the P&L - foreign exchange	(14)
At 31 December 2020	(224)

8. Directors and employees

(a) Remuneration of directors

None of the directors received any fees or remuneration for qualifying services as a director of the company during the financial year (2019 \$Nil).

(b) Employee costs

The company had no employees during the year (2019 None).

NOTES TO THE FINANCIAL STATEMENTS

9. Investments

	Investment in subsidiaries	Other investments	Total
Cost	\$000	\$000	\$000
At 1 January 2019	2,355,190	5,004	2,360,194
Additions	125,979	—	125,979
At 31 December 2019	<u>2,481,169</u>	<u>5,004</u>	<u>2,486,173</u>
At 1 January 2020	2,481,169	5,004	2,486,173
Disposals	(13,022)	—	(13,022)
At 31 December 2020	<u>2,468,147</u>	<u>5,004</u>	<u>2,473,151</u>
Impairment losses			
At 1 January 2019	(1,146,147)	(5,000)	(1,151,147)
At 31 December 2019	<u>(1,146,147)</u>	<u>(5,000)</u>	<u>(1,151,147)</u>
At 1 January 2020	(1,146,147)	(5,000)	(1,151,147)
Disposals	13,022	—	13,022

NOTES TO THE FINANCIAL STATEMENTS

10. Debtors

Amounts falling due within one year:

	2020	2019
	\$000	\$000
Amounts owed from fellow subsidiaries	2,503,323	2,134,848
Amounts owed from joint ventures	42,676	(23)
Amounts owed from associates	—	10,290
Amounts impaired	(142)	(39,972)
	2,545,857	2,105,143

Amounts falling due after one year:

	2020	2019
	\$000	\$000
Amounts owed from fellow subsidiaries	1,761,385	2,079,106
Amounts owed from joint ventures	103,274	279,373
Amounts owed from associates	7,651	44,327
Amounts impaired	(14,771)	(123,846)
	1,857,539	2,278,960
	4,403,396	4,384,103

Included within amounts owed within one year from fellow subsidiaries is an Internal Financing Account (IFA) balance of \$1,917 million (2019 1,489 million). Interest is accrued on a monthly basis based on LIBOR minus 14 basis points (2019 LIBOR minus 11 basis points). The interest rate at year end was 0.0039% (2019 1.6525%). Whilst IFA balances are legally repayable on demand, in practice they have no termination date.

Included within amounts owed after one year from fellow subsidiaries are variable rate loans. Interest rates vary from 0.9% to 17.6% with a weighted average of 3.9%. Maturity dates vary from November 2021 to June 2030.

11. Creditors

Amounts falling due within one year:

	2020	2019
	\$000	\$000
Amounts owed to parent undertakings	2,555	100
Taxation	2,723	3,829
	5,278	3,929

Amounts falling due after one year:

	2020	2019
	\$000	\$000
Amounts owed to parent undertakings	511,328	465,639
	511,328	465,639
Total creditors	516,606	469,568

Included within non-current amounts payable to parent undertakings are variable rate loans of \$511 million (2019 \$466 million). Interest rates vary from 0.8% to 13.4% with a weighted average of 2.2%. Maturity dates vary from June 2022 to November 2026.

NOTES TO THE FINANCIAL STATEMENTS

12. Loans

Loans repayable, included within creditors, are analysed as follows:

Within 5 years

	<u>2020</u>	<u>2019</u>
	\$000	\$000
Wholly repayable	437,882	409,837
	<u>437,882</u>	<u>409,837</u>

After 5 years

	<u>2020</u>	<u>2019</u>
	\$000	\$000
Wholly repayable	73,446	55,802
	<u>73,446</u>	<u>55,802</u>

Interest rates on borrowings repayable wholly or partly more than five years from 31 December 2020 range from 5.0% to 13.4% with a weighted average of 10.0%.

13. Called up share capital

	<u>2020</u>	<u>2019</u>
	\$000	\$000
Issued and fully paid:		
2,901,544,000 Ordinary shares of \$1.00 each for a total nominal value of \$2,901,544,000	2,901,544	2,901,544
	<u>2,901,544</u>	<u>2,901,544</u>

14. Reserves

Called up share capital

The balance on the called up share capital account represents the aggregate nominal value of all ordinary shares in issue.

Profit and loss account

The balance held on this reserve is the retained profits of the company.

In 2020, the company paid interim ordinary dividends of \$120 million (2019: \$150 million). The dividend per share was 4.14 cents (2019 5.17 cents).

15. Related party transactions

The company has taken advantage of the exemption contained within paragraphs 8(k) and (j) of FRS 101, and has not disclosed transactions entered into with wholly-owned group companies or key management personnel.

During the year the company entered into transactions, in the ordinary course of business, with other related parties. Transactions entered into, and trading balances outstanding at 31 December, are as follows:
